

DRIVER'S EDUCATION PROGRAM

This is all a state-mandated curriculum for anyone under the age of 18 wishing to receive a driver's license.

Thank you for choosing Brookline Driving School for your Driver's Education program. This document includes important information. The registration form <http://brooklinedriving.com/drivers-ed-signup-sheet.pdf> must be returned to us along with your full payment for your enrollment to be complete.

Please read the below carefully. You may want to keep this page for your future reference.

The Driver's Education program consists of 30 hours of classroom instruction, 12 hours of on-the-road instruction, 6 hours of observation of another driver, and a 2 hour driver safety course for a parent or guardian of the student driver.

Any student who has reached the age of 15 years, nine months (15.9) is eligible to begin taking classes. A learner's permit may be obtained from the Massachusetts Registry of Motor Vehicles, but it is not required before beginning Driver's Education classes—it is, however, required before beginning on-the-road lessons. *Driving lessons cannot take place without a learner's permit.* To obtain a learner's permit, students must be at least 16 years old. Students get a MA Learner's Permit by taking a written test at RMV (walk in basis, please check the list of necessary documents with the RMV by reading driver's Manual [Massachusetts RMV - Driver's Manual](#)).

The Registry requires that all classroom and on-the-road instruction be completed within **2 (two) years of the first class**. If a student does not finish within that time, the tuition paid will not cover remaining Driver's Education classes or on-the-road lessons, and will not be refunded. Therefore, it is recommended that a student not begin Driver's Ed unless he or she expects to finish within this time frame.

Keeping track

A **card** will be given to each student on his/her first classroom session, on which class attendance and driving lessons, observations and parents class are recorded. Students must take responsibility for keeping this card and presenting it to their instructor at each class and driving lesson. It is this card that will allow the student to get the Driver's Education Certification needed for the Qualification to set up a road test. DO NOT LOSE THIS CARD; it must be turned in to our office when the student has completed all lessons and driving hours, in order for us to send a paperwork to RMV for a certification.

Reinstatement fee for the card, if lost, is **\$20**.

Scheduling Driving Appointments:

On-the-road lessons are scheduled between the student and the driving school once classes have begun. Driving lessons are not given during class time. A Driver's Education certification of completion enables a student to take the road test (and if passed, obtain a driver's license) before age 18, provided he or she has held a learner's permit for at least six months and has a clean driving record. The certificate will also enable a student to obtain a reduction in car insurance for several years.
